

The Matrix (Matrix)

United Kingdom

The MatriX is designed to support evidence-based practice of the delivery of psychological therapies and interventions. The ambition is that everyone has timely access to high quality, person-centred, evidence-based psychological therapies and interventions that effectively improve health, mental health and wellbeing when needed by the people of Scotland. The Matrix supports this by providing guidance on the evidence for effective and accessible delivery. Its goal is to ensure the right therapy or intervention, is available at the right time, delivered by a well-trained and supported workforce, and provided as efficiently as possible.
